Lloyds TSB

You are seeing this message because LloydsTSB Security has detected suspicious activity on your account and has temporarily suspended it as a security precaution.
This may be because your LloydsTSB Bank account was accessed from an unfamiliar computer or you have made changes in your account information.

You will be able to regain access to your account once you complete the automated security verification process.

How can i regain access to my account ?

To regain access to your account, you must confirm your identity by completing our automated security verification process.
To begin this process, please visit Lloyds Website and enter your login information and password into the appropriate fields.

You can do that by simply typing www.lloydstsb.com into your browser or by clicking here.

You will then be taken through a series of steps to help verify your identity and, if necessary, scan your computer for viruses.

The security verification process is automated and is not designed to be time-intensive. In most situations, you should be able to confirm your identity and restore your account in a few minutes.

Sender: LloydsTSB Bank Account Security Department.

Lloyds TSB
